

A vibrant waterfront scene under a clear blue sky. In the foreground, a concrete pier extends into the water, where several young people are sitting on a ledge, talking and looking towards the water. To the left, a large yellow tugboat is docked at a pier, with a crowd of people gathered around it. In the background, a modern, multi-story building with large glass windows and a dark facade stands prominently. The building has a contemporary design with horizontal lines and large windows. To the right of the building, there are some trees and a paved area where more people are walking. The overall atmosphere is bright and lively, suggesting a public event or a busy day at a waterfront park or harbor area.

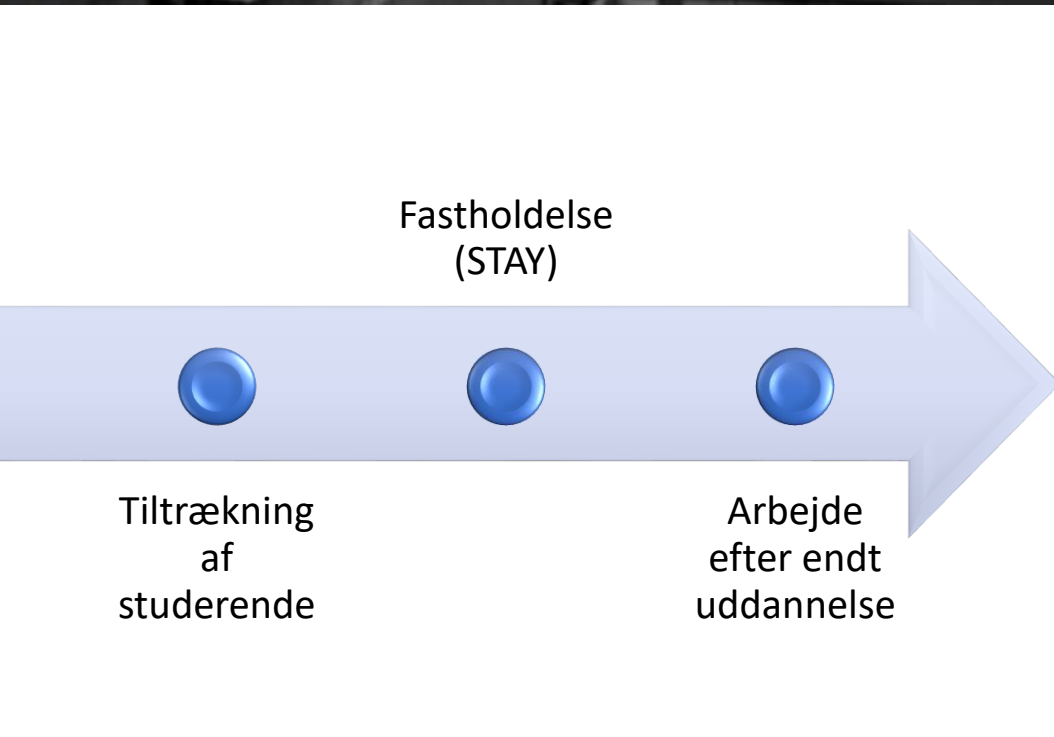

Uddannelsesstrategi 2019-2022

- Hvordan skaber vi endnu bedre sammenhæng mellem uddannelse og erhverv?

Udvikling i antal studerende i Aalborg 2009 - 2019

Kilde: Aalborg i tal 2010 – 2019. For AAU antal af ordinære heltidsstuderende indskrevet på AAU Campus Aalborg opgjort pr. 1. oktober

Arbejdskraft og (u)balance

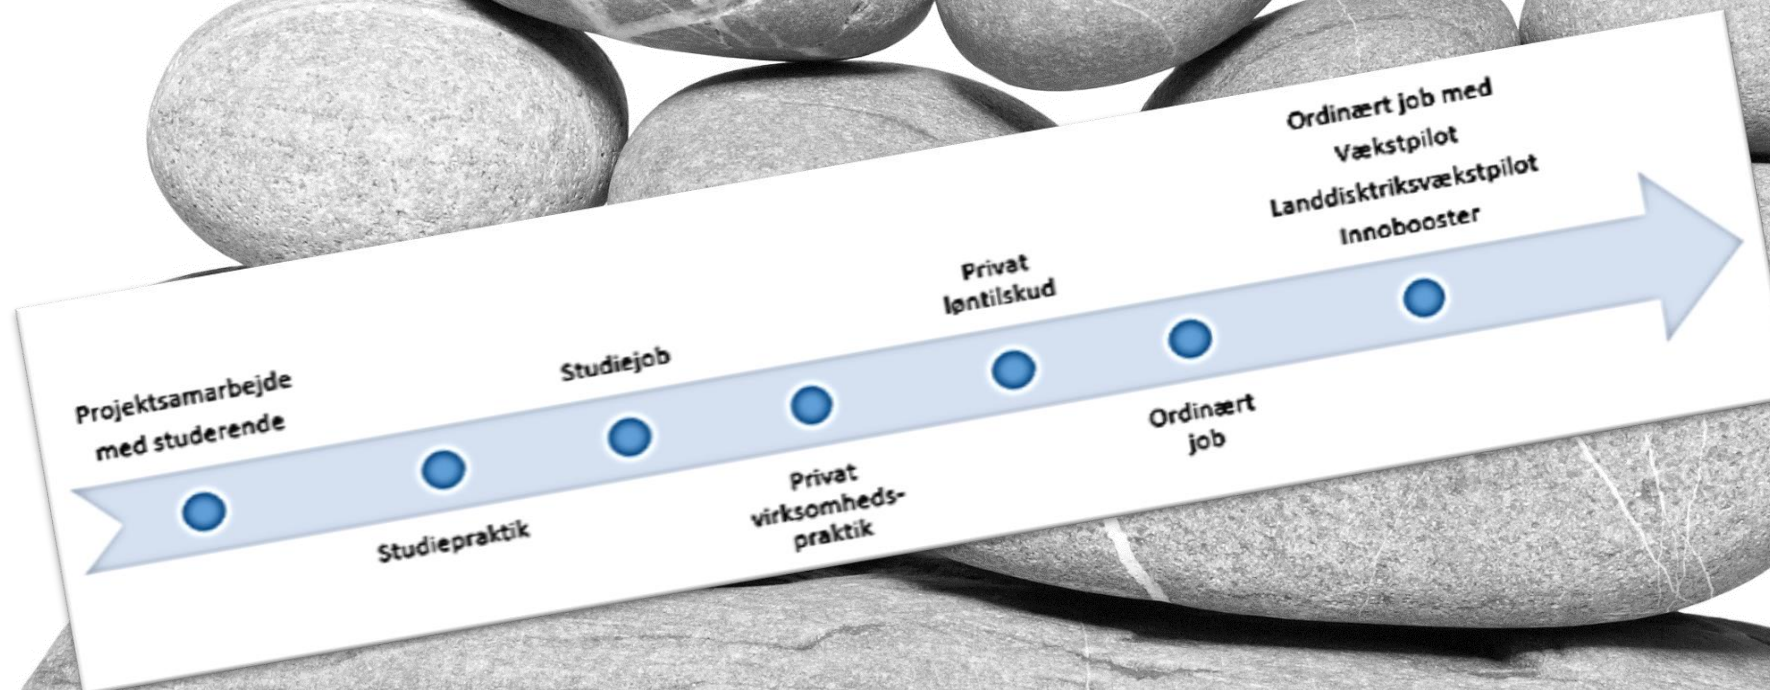

Hvad kan vi gøre, så vi ikke risikerer at taber en generation på gulvet?

- Endnu bedre vejledning på alle niveauer – alle virksomheder skal tage ansvar for lærlingepladser
- Skab bedre sammenhæng og partnerskaber – specielt fokus på SMV'erne
- Stil krav til de unge - det er sundt
- Omkvalificer med mening – eks. Fysioterapeuter til Assistenten
- Arbejd med unges mentale sundhed og livsmestring
- Aalborg skal have en skarpere fortælling – forskningsmiljøer skal konverteres til reelle klynger
